Design de Produits
en textile recyclé

Notre collection, c'est plus que du design, c'est une histoire.
Nous serions ravis que vous nous aidiez à la raconter.

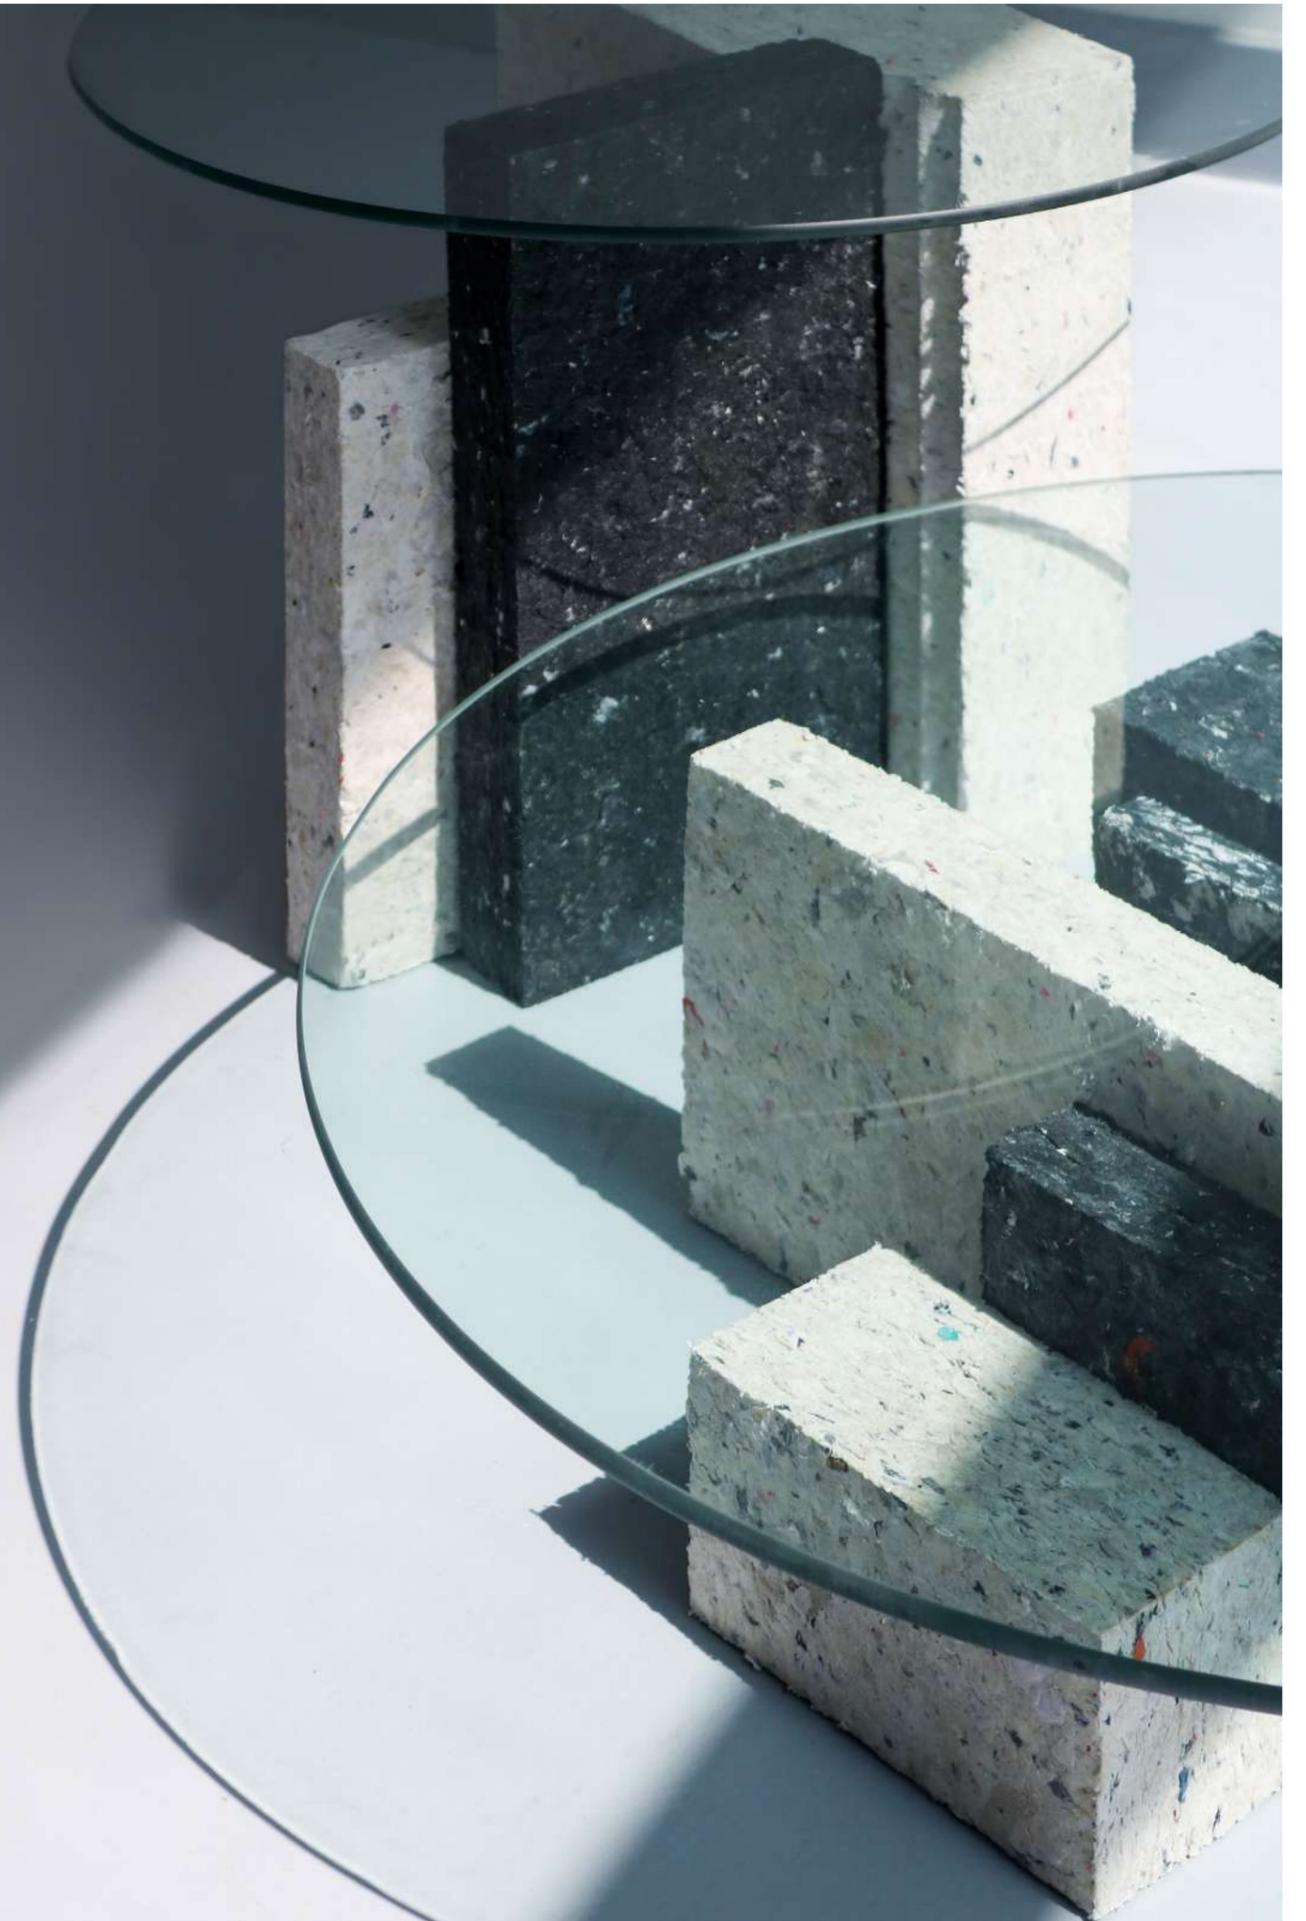

Dans cette
COLLECTION.

Chez FabBRICK, nous avons créé un nouveau matériau innovant et performant; la brique de textile recyclé.

Tous nos produits sont donc pensés et réalisés à partir de ce matériau éco-responsable.

Nous ne créons que des pièces uniques conçues et fabriquées à la main à Paris. Chacun de nos produits permet de recycler au minimum 1kg de textile.

A photograph of a stack of decorative concrete blocks with a speckled pattern, set against a background of light gray panels and a thin brass rod. The blocks are arranged in a grid pattern, and the background consists of large, light gray panels separated by thin lines. A thin, polished brass rod runs diagonally across the upper portion of the image. The lighting is soft, creating subtle shadows and highlights on the surfaces.
